Los Angeles, CA (Open to Relocation) | TN Visa Eligible (Alternative to H-1B Sponsorship) | 3-Year OPT

DATA ANALYST / BUSINESS ANALYST

UCLA Anderson MSBA candidate with two years of experience leveraging financial modeling, market analytics, and competitive intelligence across biotechnology, investment banking, and corporate strategy in North America and Asia. Translates complex financial and market data into investment, commercialization, and market-entry decisions.

TECHNICAL SKILLS

Programming & Data: Python, SQL, R, Excel

Financial Tools: Bloomberg Terminal, Capital IQ, Morningstar

Analytics: Financial Modeling, DCF Valuation, Comparable Company Analysis, Three-Statement Modeling

PROFESSIONAL EXPERIENCE

YORK BIOTECHNOLOGY

Vancouver, BC & Hangzhou, CN

Strategic Expansion Analyst (June 2025 – Aug 2026) | Research Analyst Intern (May 2023 – July 2023)

Market Analytics

- Spearheaded market research across 10 North American prostate cancer diagnostic companies, uncovering demand for lower-cost, non-invasive screening and shaping a **hospital-first U.S. market-entry strategy**.
- Developed a model to evaluate 15+ healthcare data monetization approaches based on projected revenues and implementation costs, resulting in a commercialization strategy projected to increase annual profits by **5–10%**; leadership subsequently formed a dedicated AI team to pursue the recommendation.

Business Analytics & Partnerships

- Secured board approval for a pilot U.S. product launch for an external partner by engineering a five-year forecast using 8 years of historical data across three scenarios to establish break-even, ROI, and revenue targets.
- Established and cultivated two strategic relationships with North American medical experts on behalf of the CEO, securing ongoing clinical, FDA, and product-development guidance.

CICC ALPHA

Beijing, CN

Investment Analyst Intern

June 2024 – Aug 2024

- Developed an assumption-driven DCF model with adjustable inputs, enabling senior management to generate on-demand valuation outputs for board review.
- Built the analytical case for exiting a private Chinese patent medicine investment by benchmarking 8 public peers and evaluating exposure to centralized procurement and Essential Medicines List policies, identifying underperformance versus peers and validating management's exit thesis.
- Conducted financial and contractual due diligence on a targeted \$2M share repurchase, identifying performance risks that informed management negotiations and supported execution of the **final \$1.2M transaction**.
- Consolidated performance, AUM, growth, CapEx, and portfolio metrics across 10 private equity and venture funds into quarterly board presentations supporting portfolio review and investment decisions.

INDUSTRIAL SECURITIES

Shanghai, CN

Investment Analyst Intern

June 2023 – Aug 2023

- Screened 40+ public companies across alternative sector classifications and refined the IPO peer set to 16 comparables, benchmarking revenue, growth, profitability, margins, costs, and R&D to identify a mismatch with the client's preferred high-growth chemical segment and develop an alternative positioning rationale.
- Authored 20+ pages of an IPO prospectus's market and regulatory analysis, synthesizing sector research, listing requirements across two exchanges, and comparable-company findings to support the client's proposed sector positioning.

DUBLO SOLUTIONS (Sustainable Packaging)

Vancouver, BC

Co-Founder

Mar 2020 – Mar 2022

- Developed and tested 100+ prototypes of a biodegradable paper alternative using mixed waste-paper inputs, reducing material sorting requirements while improving durability and reproducibility; secured a **Canadian patent** for the resulting process.
- Negotiated pilot partnerships with two cafés and sold 1,500 units in one week, generating \$2,500 in profit through competitive pricing against conventional cup sleeves.

EDUCATION

UCLA Anderson School of Management

Los Angeles, CA

Master of Science in Business Analytics (MSBA)

Sept 2026 – Expected Dec 2027

Statistical Foundations for Analytics (R), Machine Learning for Decision Making, SQL & Basic Data Management, Optimization (Python), Prescriptive Models and Data Analytics, Healthcare Analytics
